

Power of Algorithmic Consideration

Algorithm

Two Sum

“Given an array of integers “nums” and an integer “target”, return the two numbers such that they add up to target.”

Two Sum

"Given an array of integers "nums" and an integer "target", return the two numbers such that they add up to target."

Nums

3	21	11	18	12
---	----	----	----	----

Target

30

Answer

--	--

Two Sum

"Given an array of integers "nums" and an integer "target", return the two numbers such that they add up to target."

Nums

3	21	11	18	12
---	----	----	----	----

Target

30

Answer

18	12
----	----

Two Sum

Brute Force

Two Sum

Time Complexity:

Two Sum

Time Complexity: $O(n^2)$

Two Sum

**Optimized
Solution**

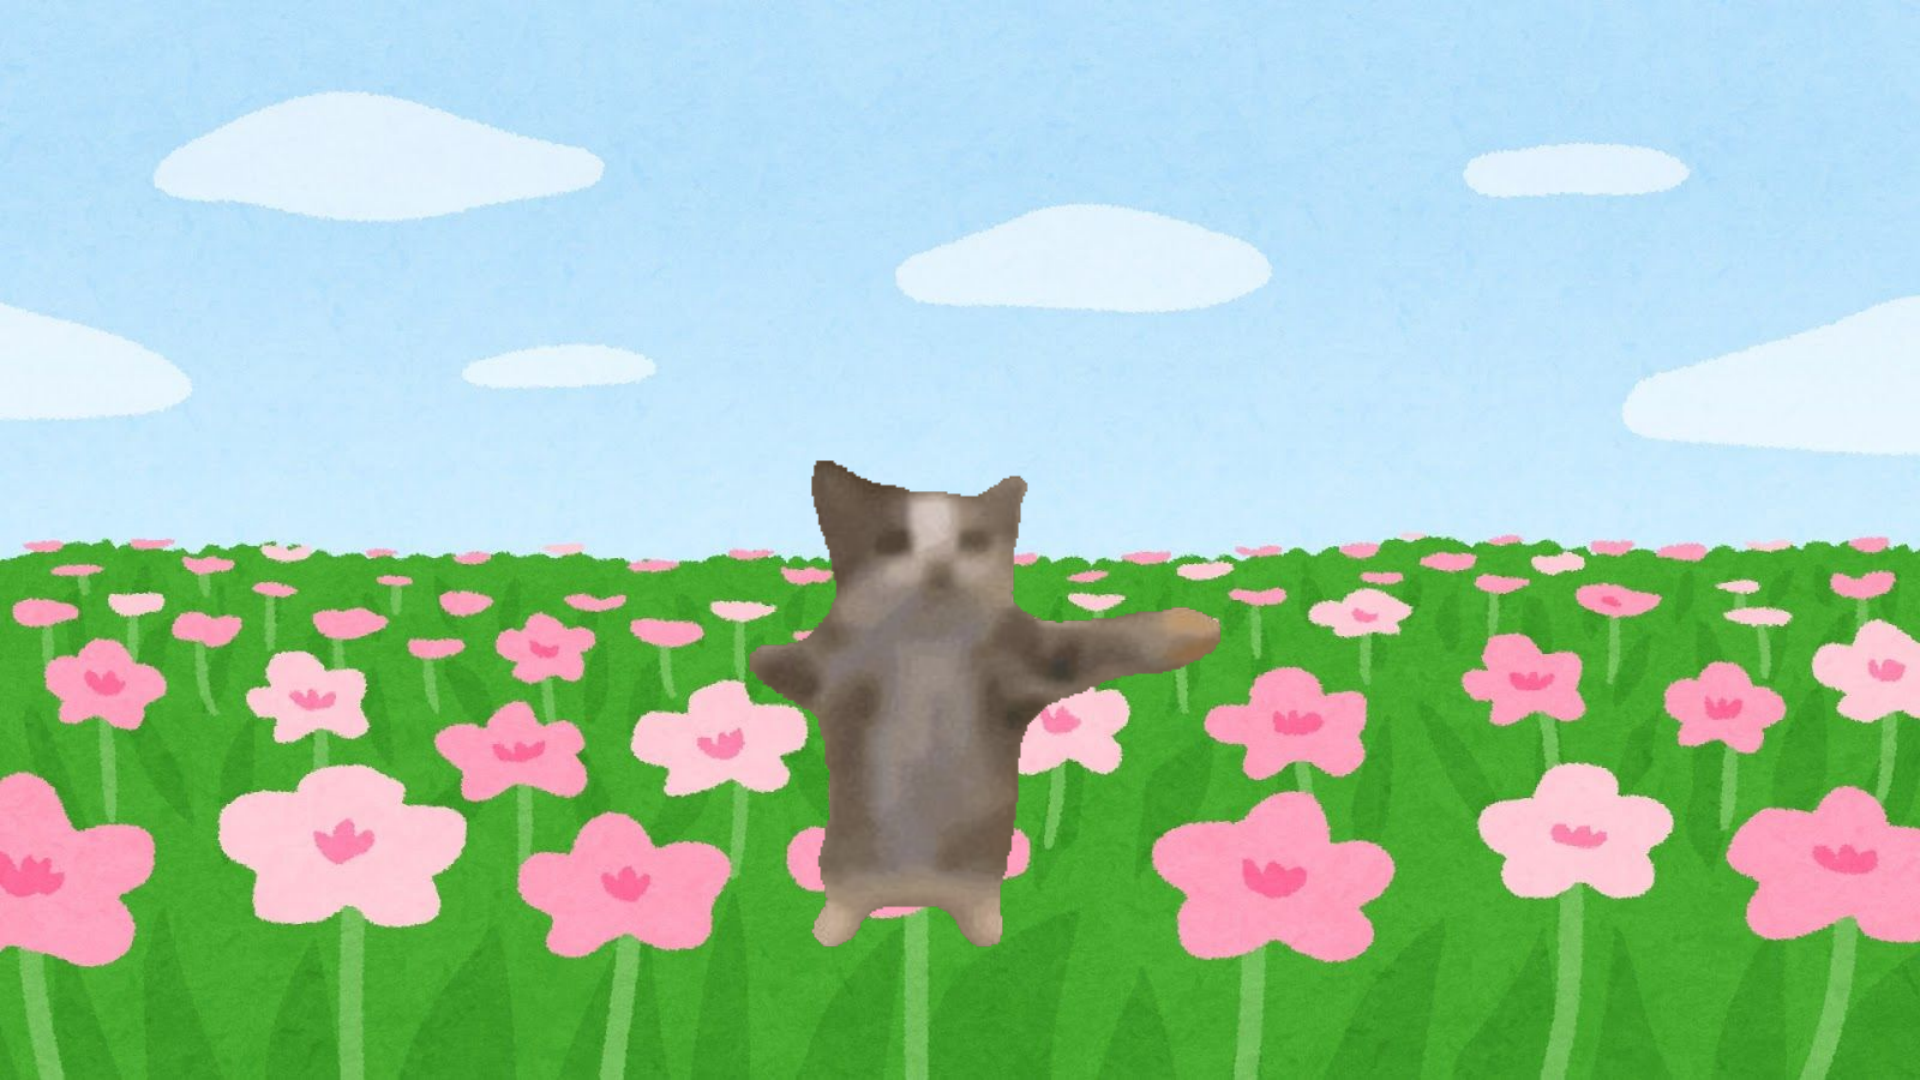

Two Sum

Time Complexity:

Two Sum

Time Complexity: $O(n)$

Use Case in Real Life

Thank you.
